

*“I didn’t think
I would ever
walk again...
now they call me
a miracle patient.”*

Here’s His Story...

“When I finally walked, I started to cry,” Bill says after knee replacement complications and seven weeks of learning to live with a straight leg. *“Now I can see my grandchildren grow.”* Few people choose to be in rehab, but Bill says he’d pick Lexington Health Care again, finding the people consoling and sincere. *“The therapists go beyond their jobs. They put you in a better frame of mind.”*

Compared to other rehab facilities, Bill says Lexington has a lot more to do, keeping him busy until bedtime. *“My days go by fast. We interact with people and have formed new friendships.”* A full schedule of stimulating activities keeps patients positive and focused on recovery. *“It’s like a resort,”* Bill says. *“I’m getting spoiled.”* Now grateful he can walk and with new perspective on life, Bill has mixed feelings about leaving. *“I wish every place was like this. I want to go home, but I love the people here.”*

“I would recommend this place whole-heartedly”

—Bill Landon, 69 years old, Retired School Teacher
