Sub-Acute & Rehabilitation Services

LEXINGTON

Health Care

Sensitivity

Dedication

Compassion

Comfort

Services Designed for You.

Lexington Health Care offers a variety of Professional Services and Programs developed to meet your individual needs.

The Sub Acute Unit

at Lexington was designed specifically for those individuals recovering from a hospital stay, requiring short-term rehabilitation.

Return to the Community

The design of this unit is to provide a relaxing environment with intense therapy available seven days a week. The goal is to facilitate your return to the community to resume an active lifestyle.

Physical, Occupational and Speech Therapy

Therapy programs are individualized with active collaboration from your physician and physiatrist on staff, to achieve your desired outcome.

Accommodating Amenities.

We take pride in our ability to understand your needs and we work hard to exceed your expectations by providing a variety of amenities including:

Personalized Residences

Newly remodeled patient rooms with comfortable and attractive furnishings including:

- Flat screen TV's
- Cable television
- Electric beds with built-in speakers

Leisure Pursuits

- From a newspaper of your choice to an evening movie, designated staff to accommodate your personal requests.
- Quiet lounge for reading, relaxing, and gathering with friends and family.
- Wireless Internet Access

Therapy Gym

Our spacious new therapy gym features the latest in therapy equipment and amenities. Specially trained therapists focus on outcomes and your individual needs.

Supporting You Every Step of The Way.

Therapy Services Include:

- Therapy services available 7 days a week, 2 times per day.
- Standardized measurement of functional abilities.
- Individual diagnostic, physiatrist, and orthopedic surgeon protocols (based on clinical conditions).
- Strong emphasis on discharge plans for returning home.
- Clinical rounds from therapy, physicians, social services, and nursing.
- Collaboration with your physicians to facilitate recovery.
- Simulated home living environment and homemaking activities.
- Pre-discharge in-home assessment available.
- Timely admission approvals and assessment from acute care hospitals.
- Performance improvement activities.
- Intimate therapy gym with specialized equipment to enhance recovery.
